

FAMED - <http://www.famed.com.pl>

We are the biggest Polish manufacturer of medical equipment. We have been present on the market since 1921. Our knowledge and experience, supported by the most modern technologies and our own research-development laboratory together with cooperation with science-research institutions, allow us to manufacture and offer medical equipment of the highest quality, which meets severe safety requirements.

Complete offer

We possess in our offer over 300 of Famed Zywiec products and as the only Polish manufacturer we are able to equip hospitals completely- from very simple furniture like modular furniture systems, desks, examination couches, screens to specialistic ICU beds, the most modern operating tables, operating lights and supply pendants. In cooperation with other manufacturers we are able to offer panel systems of operating theatres construction and laminar flows.

Quality Systems

We manufacture products according to Quality Management System ISO-9001 and ISO-13485. Taking care of environment, we have implemented Environment Management System ISO-14001 expanded over the system EMAS, which is obliged in European Community.

Technologies

The highest quality of products, manufactured by Famed Zywiec, is based on advanced manufacturing processes, supported by most modern computer technology. Laser technology, CNC machine tools, dry abrasive blasting, integral polyurethane expansion, vacuum thermal moulding and other the most modern technical achievements, allow us to produce reliable and durable products.

Our customers

Famed Zywiec has many stable foreign distributors from over 100 countries. Many clinics, hospitals and cabinets from Europe, Asia, South and North America, Africa and Australia are equipped with our medical devices
