

PRIMESTAR - <http://www.surgical-people.com>

For over 18 years, Primestar Instruments has been a valuable name in the surgical field.

Established in 1984, Primestar Instruments started as a subsidiary of Asian oldest firm M.F.Elahi & Co. (Pvt) Ltd. In 1995, it was divested and became a separate entity.

With continuing quest for excellence, Primestar Instruments has specialized in development, production & sales of precision instruments. The staff taking care of Primestar Instruments has come from Elahi and is highly professional and experienced.

Primestar Instruments is always committed to providing the customer with the following services.

1. Processing of forgings supplied by the clients.
2. Manufacturing of the instruments from imported stainless steel.
3. Customize manufacturing of new designs provided by customers after R & D.

All instruments of Primestar are thoroughly scrutinized by our experienced technicians.

All instruments are manufactured under the shelter of ISO 9001: 2000, ISO 13485:2003, Quality System Regulations (QSR), and are CE approved.
